Our Colors

One of the first impressions that comes across with color. Our primary color is Purple, Graphite Black and White. These colors are supplemented by secondary colors that allow us to emphasize elements as we need to drive hierarchy, yet still keep the brand look and feel balanced.

Primary color palette

Use our primary color palette first and frequently throughout our visual system, especially for hero application areas – such as brochure covers, presentation covers, and website home pages. This approach will help us build equity in our color and make it an identifiable element of our brand.

Purple
RGB 115, 83, 246

Color and accessibility in digital

Our color palette was designed to meet the Americans with Disabilities Act (ADA) color contrast standards.

When combining colors for on-screen text — such as for buttons, infographics, or tables — we must ensure all audiences can easily read our content.

Refer to the Web Content Accessibility Guidelines (WCAG) 2.0 for accessibility details.
